No. 15

LaCascia Gets Visiting Professorship To Speak

Joseph S. La Cascia, assistant professor of economics, has been awarded a Fulbright-Hays visiting professorship to lecture at the University of the Northeast in Resistencia, Argentina, from July to November 1966.

La Cascia inquired about the award with the Committee on the International Exchange of Persons. This committee is part of the Conference of Associated Research Councils in Washington, D.C.

Receiving his application from the Committee of the International Exchange of Persons, La Cascia filled it out, specifying that his first choice would be to teach in Uruguay, and the second, Argentina. However, La Cascia turned down the Uruguay task for a longer period of time in Argentina.

He was then nominated by the Committee on the International Exchange of Persons, which forwarded his application and credentials to the Bi-Nation Education Commission in Argentina.

The Bi-Nation Education Commission has the power to either refuse or accept the lecturer. When this commission approved La Cascia, his application was okayed by the host university in Argentina. The final decision rested on the Board of Foreign Scholarships which granted La Cascia the professorship.

At the University of the Northeast, La Cascia will be lecturing and instructing course in economic development and monetary and credit policy.

La Cascia's lectures will all be

given in Spanish. He received his master's degree in Spanish from Middlebury College in Middlebury, Vermont after attending the University of Madrid in Spain for one year. He received his Bachelor of Arts degree in economics from the University of the Americas in Mexico City.

Resistencia is located about 350 miles from Buenos Aires, the largest city in Argentina. It is the second most literate country in South America, Uruguay being the most literate. The university is one of the five new institutions of higher learning scattered throughout Argentina.

The Fulbright-Hays Professorship is open to faculty in all fields. There are approximately eight hundred of these scholarships given annually. Two-thirds of the awards are for lecturing out of the country, and the other third is given for research.

Planning to leave in June of this year, La Cascia has purchased a single-engine 1966 Cessna 150 airplane. Both he and his wife will apply for flying licenses for the trip.

At the end of this year La Cascia will receive his Ph.D. in economics along with a certificate in Latin American studies from the University of Florida.

The Tomahawk, OU's yearbook, will be available this spring to students who have attended school fulltime for both the fall and spring semester. There is no charge to students who pay their activity fees both semesters.

Notice

Any student wishing to apply for the editorship of the 1967 TOMAHAWK, yearbook of the University of Omaha, must have his application form completed and turned in to Paul V. Peterson, director of Student Publications, Rm 116 AA, no later than noon today. Application forms are available from the same office. Any fulltime student with a 2.0 or better average is eligible.

Meter Proceeds Pay For Upkeep, Parking Lot Debt

A common question asked by many OU students is, "Where do all the parking meter nickels go?"

Money is collected by a meter man and usually a student who is a part-time cashier. From there the money goes to a large coin processing machine in the cashier's office.

The coin processing machine sorts, counts and packages the money for daily bank deposits. From the bank it goes to pay the general fund.

Many students consider meter money a great problem and inconvenience. However, H. D. Keefover, University Comptroller, said "The parking situation is not the most significant problem at the University, but the most irritating problem to the greatest number of people."

Keefover went on to explain that there are many more problems at the University which have deep roots. One of the main problems is office and storage space for the administration.

He said that storage and office space have been taken up by classrooms, and that new buildings are the only answer to the problems.

However, the meter situation is solving a great financial problem. The total capital outlay for the building of the parking lots in 1955 was close to \$300,000. By the use of the meters for ten years, the debt has been slashed to less than \$15,000.

Nickels not only pay for the main construction of the lots, but for salaries of the ticket clerk and the maintenance men. They also pay for upkeep, snow removal and other such problems which must be dealt with in any parking area.

Meters seem to be a real problem in the early morning hours for students, but compared to other problems, the meter problem is small.

Students should notify the office of the Dean of Student Personnel of license plate number changes. New registration will not be necessary.

Increased Draft Hits Part-Timers

By John Whisman

Men, if you have not fulfilled your military obligation as yet and are of draft age eligibility, you are liable to be stepping out in boot camp any day now.—That is, if you are carrying less than twelve hours.

According to the Draft Board, any student carrying less than twelve hours is a prime prospect for military service. As yet, the board has not taken an interest in students classified as full-time. This is not to say that they will not take an interest, however. The director of Selective Service, Lt. Gen. Lewis B. Hershey, says that if the present pool of draft-eligible 19-year-olds is exhausted, he will draft college students. Should this step become necessary, Gen. Hershey said that he would seek help from the colleges in deciding which students to draft and which students to let stay in school.

No New Policy

Dean of Student Personnel, Donald Pflasterer, said that draft boards are inquiring during the semester about students. The draft boards are making personal inquiries about part-time students. Many good students, carrying less than 12 hours, are being called and inducted into military service. Pflasterer commented that he was sure that more students will be drafted in the near future. Pflasterer said two categories of students are being called. (1), The part-time student, and (2), the student who was not enrolled last semester but enrolled this semester to avoid the draft. Several students have been drafted who dropped out last winter and enrolled during the fall.

Married and having eight hours to complete this semester is Steve Gibson. A student at Brigham Young University a year ago, Gibson dropped out spring semester. He is now a full time student at OU.

He recently received his "Greetings from the President" but then enlisted instead.

Registrar, Virgil Sharpe, expressed his views on the subject of the draft. "The University has no new policy, as of Monday, January 10, concerning a stiffer deferment." "But," added Sharpe, "we could at any time."

Director of the Selective Service, Gen. Hershey said in a conference in Georgia this month, requirements will not exceed those of the Korean War. The draft for the Korean War hit about 80 thousand men a month. The present rate of 40 thousand per month has dwindled the supply of 19-year-olds available.

Tougher Draft Laws

The policy during the Korean War concerning the drafting of college students was a rigid one. During the War, a student had to obtain a high scholastic average upon entering college. Each subsequent year the standard was lowered. The present college system is just the reverse of this. A student has to show a degree of improvement each semester to remain in school. If the Korean War policy is again used it would mean that the younger under-

graduates would be hit the hardest.

General Hershey stated that the conference in Georgia was not one of decision-making. The decision for the question of how man power needs will be met for the Viet Nam War will be made after two other conferences. It seems inevitable that the draft rules will become much tougher after the final decisions are reached.

"The percentage of college-dropouts should be considerably smaller than in previous years," commented Hershey. "The kids are toeing in harder. Let's say they are a little more serious-minded."

A vague response seems appropriate to describe the manner in which the classification of II-S is answered in the Draft Board Manual. The classification reads: "In II-S shall be placed any registrant whose activity in study is found to be necessary to the maintenance of the national health, safety or interest. As a basis for the Korean War, this policy deferred first, those students enrolled in classes of mathematics, chemistry, and the sciences, as opposed to students enrolled in the fine arts program.

18 And Draft-free?

At present 18-year-olds are not being drafted. There are still enough 19-year-olds available that the younger set is not being considered. About 150,000 kids become 19-year-olds every month. Legally, 18-year-olds are not eligible for induction until they are 18½.

In all there are about 31.5 million registered by the Selective Service. A breakdown of this total shows those (5-A) who are over the age of liability for military service—about 13,665,000. The 4-A's who have completed prior service—about 2,388,000.

Other deferments: fathers (3-A), about 3,340,000; students (2-S), about 1,815,000.

Usables (1-Y) are at about 2,122,000. They are not now acceptable but would be in time of war or national emergency. 1-Y is poor enough physically or mentally not to be called except in an emergency. But the forces made one correction by reducing their entrance standards. The new tests have not been out long enough for a conclusion to be drawn as to the results.

This breakdown shows that about one-half of the 31.5 million is lost right away.

Enlistment vs. Draft

It is interesting to note, however, that enlistments are almost twice as high as the induction. If 30 thousand men are inducted a month, then about 60 thousand men enlist.

The calls for service are increasing. In July of 1965, 17,100 were called. This was about doubled by October. In November 38,500, in December 40,200. This January the call is expected to be about 38,000.

How are these quotas broken down as far as Omaha is concerned? The National board has a quota to fill each month. Each state gets a quota which it is expected to meet. In turn, each lo-

Editorial Voice

The University Theater Mime Troupe is to be commended for its outstanding performance last Friday. The audience showed its approval by applauding almost continually throughout the program.

Twenty-eight original sketches were packaged into an hour and a half "Evening of Mime". My only regret is that the performance did not go on for another hour and a half.

The pantomime troupe, which is an outgrowth of a pantomime project developed by last years University Players, is a great attribute of the University Theater.

It would be almost impossible to point out any one sketch as outstanding. If one thing was to stand out it would have to be the final act.

A superb mixture of acting, lighting, and sound made this the most unusual sketch seen in the O.U. auditorium. The silent movie days returned as flashing lights and "Head em' Off At The Pass" music joined with good slap stick comedy.

Congratulations to the cast, crew, and Director Allan Longacre for a most wonderful "Evening of Mime." Dennis Madigan

Psychology 101 Students To Evaluate Course And Suggest Improvements

Beginning next fall, Psychology 101 students will be playing an important part in bettering course instructions in future psychology classes.

Dr. William Jaynes, department head, said that students who have completed the course will evaluate the course and, in doing so, will suggest changes

that should be made. This semester, over 800 students will be asked to (1) show preference for three paperback books and a collection of reprints or for one large hardback book; (2) rank the paperbacks and reprints according to their value to the student; and (3) fill out a detailed form critiquing course discussions and demonstrations, teaching assistants, their lectures, social relations and the overall course.

The teaching assistants will evaluate the information pertaining directly to them and their part in the course. Dr. Jaynes said the criticisms should be of great value to the assistants as well as to the students.

Brilhart Takes Office

Dr. John K. Brilhart, head of the Speech Department at the University of Omaha, has been elected vice-chairman of the General Semantics Interest Group of America, an association of about five thousand speech teachers.

Official University Calendar

FRIDAY—JAN. 14

Speech discussion group, 11:30 a.m., MBSC 301

SILENT WEEK

No social or business events will be scheduled during Silent Week, January 16 through January 26

Graduation Talk By Iowa City's Bowen

Dr. Howard Bowen, president of the University of Iowa, will speak at the mid-year commencement, January 29, at 10 a.m. in the Field House.

Dr. Bowen who has been president of the University since 1964 received his bachelors and masters degrees from the Washington State University. He received his Ph. D. in economics from the University of Iowa.

After teaching at the University of Iowa from 1935 to 1942, Dr. Bowen was named chief of the business structure unit, U. S. Department of Commerce in 1942. In 1944 he became chief economist of the Joint Congressional Committee on Internal Revenue Taxation. In 1947 he became dean of the College of Commerce and professor of economics at the University of Illinois. He served as professor of economics at Williams College in Massachusetts from 1952 until he became president of Grinnell College in 1955.

Recently, President Johnson named him chairman of the National Commission on Technology, Automation and Economic Progress.

Monument To Be Senior Class Gift

The senior class is offering \$25 in an all-school contest for the best design of a monument to be given to the school.

It will be the class graduation gift to OU. The design should include a scale drawing of the structure and its suggested location on campus. The monument is meant to be a student gathering place and should include benches. A flag pole or bird bath is optional.

It should add esthetic value to the campus and can cost \$2500.

The deadline for the contest is Feb. 11. All entries should include the designers name, age, address, and phone number and should be submitted to the Senior Class, Box 96. The winner will be chosen by the senior class at a meeting Feb. 17, at 3:30 p.m. in the Conference Center Auditorium. Class president, Loren Drum, has more information. His number is 553-0253.

Dr. Clark Returns From 19th Broadway Circuit

"Generally the quality of playwrighting in 1965 was not as good as in other years," said Dr. Edwin Clark.

Dr. Clark made this observation after returning from his annual pilgrimage to the East, not the Middle East, but New York. For the nineteenth year, Dr. Clark stayed in New York City for two weeks and saw 16 plays.

The director of the OU Theater gave some reasons for his observation. First, he cited a lack of the plays of standbys such as Arthur Miller, Tennessee Williams and Eugene O'Neill among others.

Second, he said there were many plays imported from England. "However, I liked these best of the ones I saw," Dr. Clark added.

He also mentioned a lack of new American performers on Broadway stage. Americans are losing out in competition with English performers, he believes.

"The English government subsidizes the theater in England. Most towns there have a repertory theater which performs 52 weeks a year. This is an enormously good training ground," he commented.

On the other hand, most American theatrical hopefuls arrive in New York right after being graduated from college. After getting an apartment, they try

to find a part in a play. But according to Dr. Clark, these people lack experience.

"College students taking 12 or more hours can't focus entirely on the theater. They have classes, term papers and exams to occupy their time. Also there are not any repertory theaters in American colleges," he continued to say.

"American colleges are doing a good job within their scope of the theater," Dr. Clark concluded.

He would like to see 500 repertory theaters in the United States instead of the five or six that are in existence. He thinks these theaters would give valuable experience to American actors and actresses.

"To compete with the pros you need experience. There is no substitute. Also the death of any performance is a person thinking he's invincible. But he's not," Dr. Clark summarized.

Dr. Clark plans about two dozen talks at OU and at service club meetings around Omaha concerning his latest pilgrimage to New York City, the mecca of the modern theater.

Officials at the First Christian Church, 66th and Dodge Sts., report that they are not having problems with OU students parking in church lot. They remind students to park only in the West Lot.

Final Exam Schedule

First Semester 1965-1966

Date	Classes meeting at the following hours	Examination hours
Wednesday, Jan. 19	Eng 109, 111 and 112 Bus 319 and 320 9:30 M W F or all days 9:30 T Th	7:30- 9:30 a.m. 9:45-11:45 a.m. 12:30- 2:30 p.m. 2:45- 4:45 p.m.

Communications Courses Considered Instead of 109

A proposal for an OU summer remedial program is in the hands of the University Curriculum Committee.

If accepted, the proposal could go into effect as early as next summer.

The University Studies Division made a survey of the status of both its student population and the remedial programs at OU. The result of the study was a proposed "remedial block" program, which would be mandatory for students testing into English 109.

The students falling in that category would take eight credit hours of combined remedial work in the summer. If all courses are passed, the person would become a regularly enrolled student in the fall. If the summer courses

were not passed, he would not be admitted.

The four courses in the proposed program are English 109, Reading Improvement, Orientation and a new course, Speech 101 (Spoken English). The classes would be held during the 10 weeks of summer school.

The purpose of the program would be to increase the communications ability of persons having a deficiency in that area.

At present there are 331 students enrolled in English 109. A questionnaire given to these students indicated that 156 would have taken a mandatory remedial program last summer.

The report says this would have freed 250 spaces or 2,250 credit hours besides English 109 this fall at OU.

Skinner Will Visit In April Art Council Seeks Artists

Dr. B. F. Skinner of Harvard University will be the principal speaker at the Honors Convocation in April. He will also receive OU's Distinguished Visiting Professor title for 1966.

Dr. Wm. E. Jaynes, head of the psychology department, said, "This visit results from two years of corresponding. We are proud to have him as our guest."

Dr. Jaynes emphasized that Dr. Skinner is recognized as one of history's leading psychologists.

The Distinguished Visiting Professorship was established three years ago. Recipients prior to Dr. Skinner have been Dr. J. H. Plumb from Cambridge University, guest of the history department in 1963; Dr. A. L. Rouse, Elizabethan Scholar from Oxford University, guest of the English department in 1964, and Dean Carter V. Good from the University of Cincinnati, guest of the College of Teacher Education, who was here last year.

Govt. Class Paper Is 'Bliss-ful' Study

Sen. Richard Marvel, American and state government instructor, has formulated a new project for his classes.

While studying the political party and pressure group aspect of government, Sen. Marvel has the class doing a project on the problems confronting Republican Party leader Ray Bliss. Through research the class must illustrate these problems, and show how they may be overcome in helping the GOP once again reach the pedestal of American political parties.

Sen. Marvel also mentioned three articles in the current editions of Time, Newsweek, and Harper's magazines. Time's article concerns economics in the United States; Newsweek has featured a story entitled, "The Second Protestant Reformation," and Harper's has an article on John Lindsay vs. Robert Kennedy in New York.

There are 6,175 students enrolled in the College of Adult Education. Of this total 59 per cent or 3,615 are enrolled only in evening classes.

Counsel Service To Help Students Decide Vocation

Vocational and guidance services are one of the latest trends in education today. Omaha University is the only university in Nebraska offering a counseling agency recognized by the American Board On Counseling Services.

OU has offered the Vocational Guidance Testing and Counseling Service for nine years. It is headed by Dr. Gale Oleson.

An article by Lester Velie in the January issue of Readers Digest deals with many situations concerning people choosing careers. Entitled "Should You See A Career Doctor?", the article shows career problems solved by a counseling agency comparable to the one at OU.

OU students are given the test free. Non-students must pay \$45 for the same services.

The counseling and testing service consists of interviews and tests measuring intelligence, aptitude, achievement, interest and personality. Approximately 15 to 20 hours are required to examine three separate areas: education or training, employment status and personal information.

The service helped one student learn his strong and weak points in choosing areas for a career. Another person increased his annual earnings by \$4,000.

Other results have been noted by the counseling service. Approximately 80 per cent of those counseled furthered their education, 50 per cent attended Omaha University.

The tests are given to the student at his convenience in Adm. 213.

Most Drivers Termed 'Sane'

Tickets and accidents are a few of the problems an OU driver must face with the current parking problem at its peak of severity.

According to Robert Krenzer, director of the physical plant, "All in all, Omaha U. students are good sane drivers." He said, however, with over 8,000 cars on campus it is understandable that there are some bad drivers, but on the whole the good overtake the bad.

In regard to traffic accidents Krenzer said that even with the large number of cars, there are relatively few accidents. In accident situations the city police have priority over the campus police, but they work together to prevent as many accidents as they can.

"In some instances," said Krenzer, "there are some students that have ten or twelve unpaid tickets to their credit and, of course, don't receive grades until they are paid."

Practice Teachers Are Multi-talented

Joan Martig, who won the Omaha Women's Golf Tournament in 1960, '61 and '65 and who was runner-up in the state tournament in 1965, is one of the 91 elementary student teachers who will practice teach next semester.

Seventy-four of these student teachers will be practice teaching in Omaha public schools, 14 in District 66 and three in Bellevue.

A girl from Manila, Lilah Disson, who holds a law degree from the University of the Philippines, is one of seven people who already hold degrees in other fields. They are now working for their teaching certificates.

Seven men will be student teaching in the elementary field, too, next semester.

Registration Date Set For Transferring Fresh

Dr. James A. Scriven, director of admissions, announced the new deadline for admissions to Omaha University for the spring semester is January 15. He said all freshmen and transfer students with fewer than 58 hours must apply by that date.

Band Seeks Members

The concert band needs more players of various instruments for next semester, said Jack Malik, band director.

A number of band scholarships are available, too, he said.

Malik said that persons interested in taking band should see him in the Music Annex as soon as possible.

Art Aid Available

The art department is now wealthier by two additional scholarships.

They are the Lucy L. Merriam and the Leo Daly scholarships. Both are worth \$300 a year for four years.

The scholarships will be awarded to incoming freshmen next fall by the faculty. An art contest during the summer will determine the winner.

ROMAN IN THE GLOAMIN'

Now as the end of the first semester draws near, one fact emerges clearly: you are all going to flunk out of school.

There are two things you can do about it. First, you can marry money. (I don't mean you marry the money itself; I mean you marry a person who has money. Weddings between people and currency have not been legal anywhere in the United States since the Smoot-Hawley Act. Personna® Stainless Steel Blades, on the other hand, are legal everywhere and are, indeed, used with great pleasure and satisfaction in all fifty states of the Union and Duluth. I bring up Personna Stainless Steel Blades because this column is sponsored by the makers of Personna Stainless Steel Blades, and they are inclined to get edgy if I omit to mention their product. Some of them get edgy and some get double-edgy because Personna Blades come both in Injector style and Double Edge style.)

But I digress. I was saying you can marry money but, of course, you will not because you are a high-minded, clean-living, pure-hearted, freckle-faced American kid. Therefore, to keep from flunking, you must try the second method: you must learn how to take lecture notes.

According to a recent survey, eleven out of ten American undergraduates do not know the proper way to take lecture notes. To illustrate this appalling statistic, let us suppose you are taking a course in history. Let us further suppose the lecturer is lecturing on the ruling houses of England. You listen intently. You write diligently in your notebook, making a topic outline as you have been taught. Like this:

- I. House of Plantagenet.
- II. House of Lancaster.
- III. House of York.

Then you stop. You put aside your pen. You blink back a tear, for you cannot go on. Oh, yes, you know very well that the next ruling house is the House of Tudor. The trouble is you don't know the Roman numeral that comes after III.

It may, incidentally, be of some comfort to learn that you are not the only people who don't know Roman numerals. The fact is, the Romans never knew them either. Oh, I suppose they could tell you how much V or X were or like that, but when it came to real zingers like LXI or MMC, they just flung away their styluses and went downtown to have a bath or take in a circus or maybe stab Caesar a few times.

You may wonder why Rome stuck with these ridiculous numerals when the Arabs had such a nice, simple system. Well, sir, the fact is that Emperor Vespasian tried like crazy to buy the Arabic numerals from Suleiman The Magnificent, but Suleiman wouldn't do business—not even when Vespasian raised his bid to 100,000 gold piastres, plus he offered to throw in the Colosseum, the Appian Way, and Technicolor.

So Rome stuck with Roman numerals—to its sorrow, as it turned out. One day in the Forum, Cicero and Pliny got to arguing about how much is CDL times MVIX. Well, sir, pretty soon everyone in town came around to join the hassle. In all the excitement, nobody remembered to lock the north gate and—wham! before you could say *ars longa*—in rushed the Goths, the Visigoths, and the Green Bay Packers!

Well, sir, that's the way the empire crumbles, and I digress. Let's get back to lecture notes. Let's also say a word about Burma Shave®. Why? Because Burma Shave is made by the makers of Personna Blades who, it will be recalled, are the sponsors of this column. They are also the sponsors of the ultimate in shaving luxury. First coat your kisser with Burma Shave, regular or menthol—or, if you are the devil-may-care sort, some of each. Then whisk off your stubble with an incredibly sharp, unbelievably durable Personna Blade, Injector or Double Edge—remembering first to put the blade in a razor. The result: facial felicity, cutaneous cheer, epidermal elysium. Whether you shave every day, every III days, or every VII, you'll always find Personna and Burma Shave a winning combination.

Personnam amo, Tom Personnam amat, Dick Personnam amat, Harry Personnam amat, quique Personnam amat—et quoque amabitur.

Indians Out For Gorillas

63-55 Decision Over Washburn Follows 69-67 Loss to Ft. Hays

By Leo Meidlinger
and
Mike Moran

Omaha's up and down basketballers, buoyed by a 63-55 victory over Washburn Tuesday, get the big one . . . a shot at home against CIC leader Pittsburg tomorrow night at eight. Indian head coach Jim Borsheim is looking forward to the clash with the 10-3 Gorillas with more than a little anticipation.

"This team can be beaten, especially away from home," said Borsheim Wednesday. He was, of course, referring to the famous Pittsburg home court advantage that has turned the Kansas court into one of the area's leading snakepits. Time and time again, teams have taken good records in Pittsburg only to fall victim to the home-flavored dishes cooked up by poor lighting, screaming partisans and County Fair officiating.

Borsheim knows this . . . his team played good ball down there earlier this season only to lose an 82-63 decision when playmaker Charley Myers and big Denny Browne departed via the foul route with ten minutes left in the game.

Tomorrow's match will also put Pittsburg's All-CIC center Jim Chroust to his big test. OU players complained of Chroust's waterfront tactics at Pittsburg and vow he won't get away with it here. The 6-7 pivot is the loop's leading scorer with a 21.5 ppg. norm to Omaha star Sam Singleton's 20.3. Forward Don Meadows has a 16.2 average to back up the Chroust board work.

Pittsburg is looking to this game as a stepping stone towards a second straight CIC title. Last season, a so-so Gorilla team backed into the title as Omaha, Washburn and Fort Hays cut each other's throats down the wire by splitting home and home decisions. Omaha beat Pittsburg here last year . . . and of course took it on the chin in Kansas.

Top Crowd

OU officials are looking for the top crowd of the year for this

one. A record 3,500 turned out for last Saturday's match with Fort Hays, but this was souped up by the preceeding match between the state's top rated high school teams, Benson and Northeast.

The Indians know that a win tomorrow night can vault them back into title contention. With a little more consistency, OU could be the top dog down the wire, especially in view of the fact that Borsheim stands for the first time in five years to retain his entire team second semester. An early check of the grade books reveals all players to be making headway in the classrooms.

This game pits the league's top

Indians Climb From CIC Cellar

OU used an aggressive stall the final three minutes Tuesday night to upend Washburn, 63 to 55, and escape the CIC cellar.

The Indians are now 1 and 2 in the conference and 5 and 8 overall. Washburn dropped to an 0 and 4 CIC mark.

The Indians led by as many as nine points during the first half, but the Ichabods of Topeka, Kansas, whittled the OU margin to just four at halftime, 31 to 27.

Ichabods Rally

Washburn began a rally with about six minutes left and narrowed the OU margin to four points once again.

The Indians went into ball con-

Haas . . . Indian Scores In Tiger Den.

scorers, top rebounders and top field goal percentage leaders in the same contest. The CIC title is at stake for Pittsburg, a solid first division berth lies at stake for Omaha. It should be one of the finest games on the home court here in some time.

Activity cards admit all OU students for the eight o'clock tip-off.

trol tactics and forced the Kansas club into defensive lapses that produced a pair of easy field goals for Bill Haas and one bucket for Sam Singleton.

Singleton lead all scorers with 23 points, Haas netted 20, and Dennis Browne, who dominated both boards, added 10.

Sam Shipstead paced the Ichabods with 17 points and Ron Ford added 14.

Desperation Shot Lifts Hays, 69-67

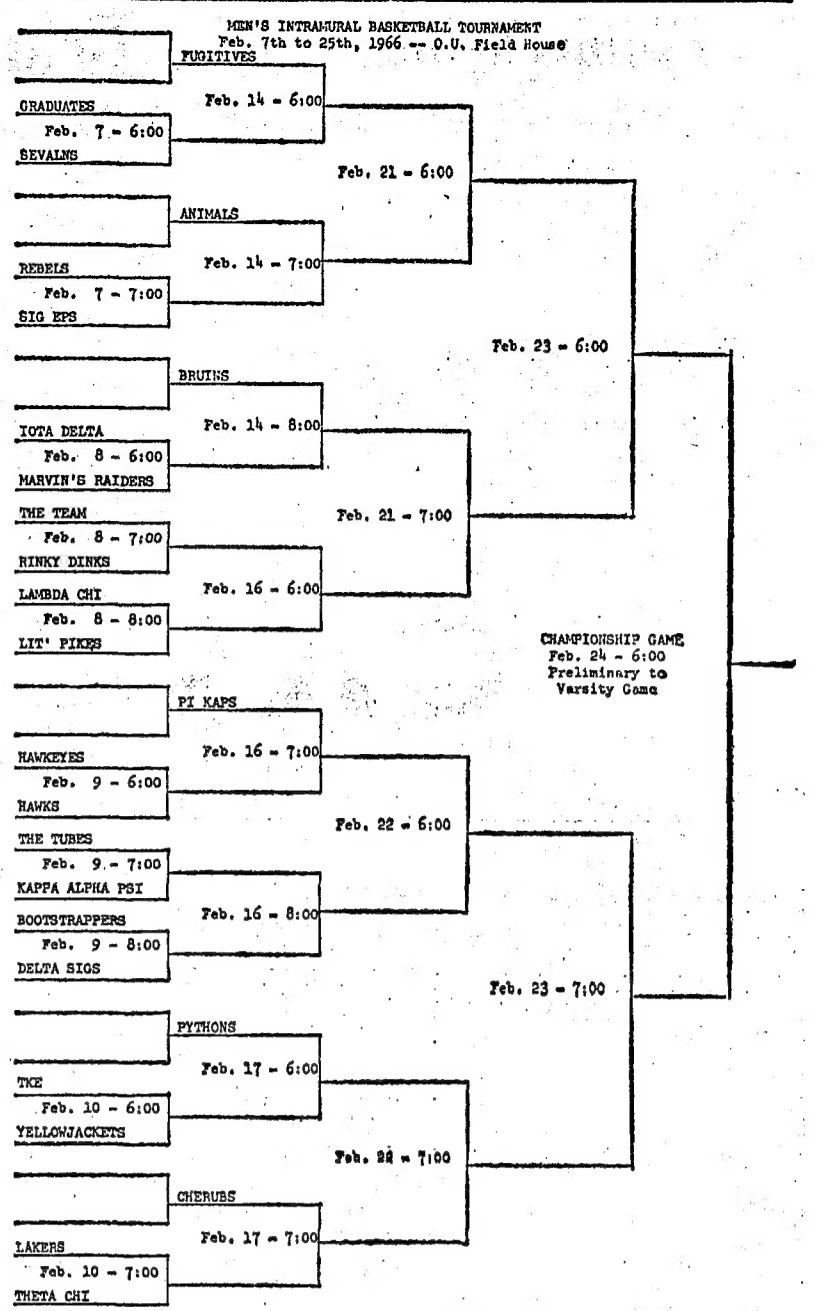

An 18-foot jump shot from the corner with two seconds remaining lifted Fort Hays to a 69-67 win over OU Saturday night at the fieldhouse.

The crowd of over three-thousand seemed stunned as Bill Strait tossed in the winning bucket, only his fourth of the game.

The field goal cut short an Indians rally that seemed sure to send the see-saw contest at least into overtime.

Trailing 39-33 at halftime, the Omahans surged in the final 10 minutes of the second half.

Brothers Jimmy and Charlie

Bruins, Fugitives Knotted; Cherubs Take League II Title, Tubes Win III

The Cherubs defeated the Hawks Monday to clinch the League II title in Intramural basketball. In other action, The Tubes assured themselves of a tie for the League III championship by defeating the Lakers.

Myers chipped in three late baskets to finally bring OU even at 67-67. Charlie's jumper from the outside with 1:02 left forged the deadlock.

The Tigers then went into a stall, waiting for a break in the OU defense that never materialized. But Strait's jumper curled the netting as it went through, sealed the decision for the Kansas club.

Dennis Browne paced all scorers with 19 points, while teammates Sam Singleton and Bill Haas added 18 and 16, respectively.

Students Debate ETV In Two-Class Meet

A unique type of conference in which no definite decisions were made was held this week on campus.

Bert Miller's Conference Speaking class put on the confab in conjunction with James Onder's TV Techniques class. Twenty-eight people attended the session which debated the merits and drawbacks of educational television.

Moderated by speech class member Chet McCarthy, the conference heard comments from Biology professor Dr. Charles Ingham, Journalism department head Dr. Paul Peterson and others.

Others on the panel were Tom Fillman, Student Council president Doug Slaughter, John Povilaitis and Red Erickson.

"Even though ETV is at the beginning stage, it is important for students to understand how television can provide an adequate education without the instructor in the classroom," McCarthy said.

ETV . . . Merits and Drawbacks

Povilaitis (left) and Ingham listen . . . as McCarthy (center) discusses ETV. Story at left.

Carthy said.

The purpose of the conference was to learn the opinions of educators and students as to whether they felt handicapped

and deprived of an adequate education by the use of ETV.

This conference was held Wednesday in the Milo Bail Student Center.

Increased Draft Hits Part-timers

(Continued from Page 1)

cal board is given a quota to fill. The local board has a list of the eligible men in its board district. One board, of three in Omaha, had a quota of 32 last month. The quota was not met. For instance, this month, the board has six men ready for induction. If, however, one or all of these men would enlist and be assigned before induction, the board would be out that number of men.

Athletes are subject to induction as well as any other student, according to football coach Al Caniglia.

He said that all athletes must attempt 12 hours each semester. An athlete who does not pass all 12 hours will not be placed on probation but he is considered ineligible for the coming semester.

He may be ineligible but he can still be in good academic standing as long as his total grade point is at least a two point.

Caniglia said that an athlete must attempt 12 hours in the semester he is participating in sports. He must also have attempted and passed 12 hours each of the preceding three semesters.

After receiving his draft notice, an athlete can be reclassified if he makes up his credit deficiencies and boosts his grade point in summer school. Student Personnel Dean Don Pflasterer can send a letter of recommendation to the draft board asking for student deferments.

Companies Seek Talented Seniors By Interviewing

Many companies are searching American college campuses for talented seniors, who will graduate with degrees in engineering, business administration and liberal arts.

Seniors who are not yet registered for interviews with company representatives can do so now for February interviews.

Appointments must be scheduled. The Placement Office, Adm. 231, will be open during the semester break.

Education Dept. Gives Teacher Meeting Dates

The secondary student teachers who requested placement in District 66 will meet at 1 p.m. today in Adm. 304.

All secondary student teachers who requested placement in the Omaha public schools will meet Jan. 27 at 2 p.m. in Adm. 110. Omaha school application forms are now available in Adm. 314a, and this new form must be completed prior to the Jan. 27 meeting.

Brooks Has Applications For State's 'Top' Biologist

Nominations now are open for Nebraska's top biology teacher. Forms may be obtained from Dr. Merle E. Brooks and should be returned by March 15.

Dr. Brooks is director of the outstanding biology teacher award program. Nebraska's winner will be selected by the committee which Dr. Brooks heads.

Dr. Robert Borgman is also a member of the committee.

The Geography Club initiated 21 new members into the National Geography Club honorary society, Gamma Theta Upsilon.

Car Lot Pilferer Picks On Prexy's Parking Place Post

The mystery of the week is the whereabouts of those two elusive "Reserved for President Traywick" parking signs pilfered from the Administration Building. After having suffered the loss of two signs in as many weeks, disturbed, but tight-lipped, campus officials ponder their next move. What will they do? Watch future issues of the Gateway for more details of this baffling mystery.

**PERFORMANCE
THE CHEVROLET
WAY**

It's our Turbo-Jet 396: the V8 strong enough to run your Chevrolet and its automatic transmission, power steering, air conditioning, power windows, AM/FM Multiplex Stereo radio. And more. Without even breathing hard.

Reason is, a Turbo-Jet V8 breathes deeper. Breathes freer. Delivers more usable power whenever you need it—like for safer passing. Works more efficiently. Where the smaller engine hurries, a Turbo-Jet V8 just loafs along. You try it, at your Chevrolet dealer's. And nowhere else.

We offer two Turbo-Jet 396 V8s for '66. You can order 325 hp in any Chevrolet; 325 or 360 hp in a Chevelle SS 396. There's also a 427-cu.-in. Turbo-Jet (up to 425 hp) available in Chevrolets and Corvettes.

'Plug-in' Soon For 60th Street Lites

Omaha University students should soon benefit from the left-turnoff into the University at 60th and Dodge Streets.

That was the word from City Works Director Burt Whedon Thursday. Late arrival of signal poles has caused the delay, but they should be in today.

In addition to the one signal that has been put in, "mastarms" will be installed at all intersections, Whedon said. Mastarms are overhead lights.

Whedon reports the lights should be in operation next week.

These traffic lights will open another access to the University.

Math Revisions To Benefit More

Two courses offered by the Math Department have been revised for second semester. They are Math 101—Logic Sets and Functions and Math 102—Finite Probability and Statistics. The revisions are intended to make the classes useful to a larger student group.

Student's Relative Dies In Gas Transport Crash

The father of the GATEWAY's feature editor was killed Saturday when his gasoline transport truck overturned on Highway 183 six miles north of Mondamin, Ia.

He was Sheldon E. Tarkington, 45, father of Mrs. Mardelle Susan.

Services were held Monday afternoon at the Cutler Chapel in Council Bluffs.

Great Shades, Caesar: 'Ox' Olympics at 8

Tricycle races, egg tosses and pyramid building will be main events in OU's annual farce olympics tonight.

Occasion for the parody is the Theta Chi "Ox" Olympics. A chariot race at 8 p.m. will initiate activities in OU's Field House.

Participants in the competition will be members of the Greek organizations. Points will be awarded to winners and runners-up in each division. A compilation of individual points at the end of the evening will determine the group winners.

Two trophies will be awarded—one to both the fraternity and sorority accumulating the most points.

In addition, a "Helen of Troy" will be named. Candidates are Sandy Burdick, Zeta Tau Alpha; Jane Carter, Sigma Kappa; Sheri Gilligan, Alpha Xi Delta and Marcia Hanek, Chi Omega.

"Helen" will be chosen by a combination of a judges' panel decision and the total number of points earned by the candidate's sorority in the competition.

Hanek: 'There'll Be Some Made'

Changes to strengthen rules governing the Ipmaoues were announced this week by President Marcia Hanek.

The changes are part of an effort to make the newly-formed cheering squad more effective. Meetings have been changed to Thursdays. Attendance will be taken at games. The membership of those who do not actively participate will be revoked.

According to Marcia, attendance at games has been poor. Out of 70 members, only about 20 attend each game.

"Since the organization is an honorary group, membership has been selective. For that reason, there is no room for members who do not actively participate," Marcia said.

Chi O's To Crow At Pledges' Party

The pledges of Chi Omega will have a date-party honoring actives February 28.

The annual Pledge-Active party will be held at Dewey Park Pavilion from 8-11. The New Yorkers Combo will play for the dance.

Buff Hudson is in charge. Entertainment will include a comical pledge skit about the actives.

One of these girls will change her name to 'Helen' tonight. Candidates for the Theta Chi Helen of Troy title are L. to R. Jane Carter, Sandy Burdick, Sheri Gilligan and Marcia Hanek.

Corinthians Honor Physics Student John Hoff For High Grade Average

John T. Hoff, 19, has been chosen Corinthians Scholar of the Month. He is a sophomore in the College of Liberal Arts.

He has completed 34 hours with a 3.97 average. This semester John is taking 16 hours.

After receiving his BA. in physics, John hopes to go on to graduate school, majoring in either biology or chemistry. He plans to eventually get his PhD.

Biology and chemistry also occupy John's time at OU. He is a monitor for a TV biology class and is a member of Gamma Pi Sigma, chemistry honorary.

John spends his spare time taking care of his car, a 1965 Chevy Malibu. "It's my proudest possession," he grinned.

Corinthians, an honorary for juniors and seniors with a 3.5 average, honors an underclassman each month for outstanding scholarship.

Dollies Soon To Drill

The marching Angels, a drill team affiliated with Angel Flight, have been chosen. They are Jill Anderson, Diane Berry, Lynn Gorton, Beverly Grasso, Roxi Holmes, Marji Holmquist, Georgia Hunter, Pat Karre and Joyce Kavan. Others are Darlene Kriesel, Linda Logan, Diane Peterson, Lois Prazan, Mary Rheinfrank, Nina Suhl, Carolyn Williams, Pauline Williams, and Kathy Wybenga.

They were chosen on the basis of their marching ability, appearance, and attendance at preliminary marching practices.

This is

Charger

new leader of the Dodge Rebellion

Tired of looking at dream cars you can't buy? The cars you see at the Auto Show and never see again? Well, then, do something about it. See the one you can buy, right now, today, at your Dodge dealer's. It's Charger, a full-sized, fastback action car that's all primed up and ready to go. With V8 power. Bucket seats, fore and aft. Full-length console. Disappearing headlights that dis-

appear without a trace. Rear seats that quickly convert into a spacious cargo compartment. Just pop the rear buckets down and watch the cargo space go up. That's Charger—breathtaking new leader of the Dodge Rebellion. Until you've seen it, you haven't seen everything from Dodge for '66. Charger, a brawny, powerful dream car that made it—all the way to your Dodge dealer's.

For the girl who's got almost everything

This latest creation by the House of Valjean marks a radical departure from the traditional line of accessories for m'lady. Done in chic, ultra-conservative white, the material falls in natural, classic lines. Mr. Valjean readily admits that this fashion first restricts activity. It was, he says with a charming Gallic shrug, designed to do just that. According to Jean, the girl who *really* has everything must, of course, have a savings account at the U.S. National. Because she does, she has no need for M. Valjean's accessory—she can afford a complete wardrobe of the latest fall fashions. Her hard-earned savings are not only safe, but growing day by day with instant in-

terest. *His* item, he explained, is specifically designed for the girl who has everything *but* a U.S. National savings account. Tears welled in his eyes as he considered her plight—chic fashions in every window—frustration in every newspaper. We agreed that it was more than even the strongest resolve could withstand. "But," says Valjean, "ees simple!" She dons his creation and "Voilà!"—no more frustration. After the show, idle curiosity led us to ask Jean what he called his new and functional accessory. With a scornful look, he replied, "Quel question! I call eet a blindfold—what elsel!"
